### ***Enterprise Big Data & Integration Architect ~ Product & Program Development Lead***

Mr. Magnone is a successful, hardcore technologist with unique strategy, architecture, and design experience. He has over 30 years successful leadership and hands-on design and development with significant make-or-break projects and technology practices, including some of the world's fastest, most scalable data and message driven systems and some of its most crucial pieces of data infrastructure. He has a long history of successfully engaging at the SVP and CxO levels world-wide. Mr. Magnone has built and sold multiple firms, been the turnaround CEO at another, and acts as Entrepreneur-In-Residence for several early stage venture funds in NY and NJ. He is a veteran, a US Army Field Artillery Officer, and a graduate of Saint John's University in NYC. Highly effective in:

- Big Data/VLDB
- Master Data Management
- Service Oriented Architecture
- Cloud Computing
- Fast Data
- Data Modeling
- Integration Strategy & Development
- Analytics & Predictive Analysis
- Logical & Physical Data Model Implementation
